

HASHIR ADNAN

PYTHON DEVELOPER & AI CHATBOTS DEVELOPER

PROFILE

I am Hashir Adnan an innovative developer specializing in the creation of sophisticated AI-driven chat solutions, including essential and advanced chatbots and virtual assistants. Expertise in designing and implementing solutions that enhance customer engagement, streamline communication, and ensure round-the-clock brand presence. Committed to delivering smart, professional, and tailored conversational experiences for websites and businesses.

WORK EXPERIENCE

Hashir Adnan

2025 - PRESENT

Python Developer & Data Scientist | THF NEXUS / Freelancer | 2025

Chatbot/Virtual Assistant Developer

Developed and deployed advanced chatbot and virtual assistant solutions for diverse clients, achieving significant improvements in customer satisfaction and operational efficiency.

Utilized a wide range of technologies, including NLP, machine learning, Dialogflow, Rasa, and custom API integrations, to create tailored conversational experiences.

Led projects involving:

Customer service automation, resulting in reduced support costs.

Lead generation and qualification, leading to increased conversion rates.

24/7 multilingual support solutions for global businesses.

Front-End Web Developer & SEO Specialist | THF NEXUS/Freelancer | 2025

Developed high-ranking websites with optimized SEO strategies, increasing organic traffic by 35%.

Created and sold digital products, growing passive income streams.

Managed a digital store with seamless Paypal payment integration.
